

PHILLIPSBURG FLY THE BURG AIRPORT NEWS

We have plenty more news to share with everyone, but first of all... Congratulations to all the following pilots for their recent achievements!

Mikey Davis - Solo

Cameron Bayer - Solo

Keith Murchison - Sport Pilot Certificate

Kevin DeMarco - Private Pilot Certificate

Joshua Strader - Private Pilot Certificate

Jack Seymour - Instrument Rating

Katie Lake - Instrument Rating

Paul Sheerin - CFI

Mikey Davis (left) celebrates his first solo flight with flight instructor, Scott Neaves (right). Mikey is EAA Chapter 373's winner of the Ray Aviation scholarship to help achieve his private pilot certificate. Congratulations, Mikey!

If you've been inside the FBO recently, you will have noticed some changes! We have added a new front desk, new flooring, and a pilot shop is beginning to grow! We are now an official dealer for FlightOutfitters pilot gear, and we're excited to add Steel Aviation and Phillipsburg Airport custom apparel and gear in the coming months!

We now have available help on Saturdays -

Thank you to Steve McNew and Ron Bush!

Accommodating to everyone's schedule can be difficult and this help is important to the airport as we continue to grow. Stop by and say hi!

With all the good vibes surrounding Phillipsburg Airport, we unfortunately had to deal with several cases of extremely sad news. Tragedies have occurred with close friends and family, and amongst the shock and heartbreak, our flight school's long-serving instructor, Darry Largent, passed away. We know he has helped so many people achieve their goals and dreams in aviation and he will be missed. Tom Wagner also flew West. Tom was a long-time supporter of the airport and lover of aviation. Much of what you see today would not have been possible without him. He would ask what we needed, get it here, and never ask for anything in return. He would always tell us to pay when/if we can. We could never pay Tom enough for his kindness. A fond memory of Tom was when he flew rides for the airshow. He flashed the sheepish grin, while stating he was having more fun than he had in a long time! He loved seeing the looks on people's faces when they were going for their first airplane ride. We will miss him, but we'll take the lessons he taught us through our friendship, and his memory will live on. Tailwinds, Tom!

The spirit of aviation lives on... Ken Curell, Scott Neaves, Paul Sheerin and Dawn Gordon are readily available certified flight instructors.

Discovery flights, biannual flight reviews and so much more. With well-equipped aircraft - all including Avidyne IFD's, your chance to better yourself as a pilot **starts now!**

Check our website and online scheduling!

Signing up is easy and convenient... We hope to see you soon!

IT'S THE MOST WONDERFUL TIME OF THE YEAR

MARK YOUR CALENDARS!

STEEL AVIATION CHRISTMAS PARTY

Dec 6, 2019 | 7:00pm

4433 East State Route 55,
Casstown, OH 46312

Mark your calendars for Friday, December 6!
Fun prizes, fellowship, aviation stories...
It is the most wonderful time of the year!

We will start with some good news! **Steel Aviation has been approved as a Diamond Service Center.** In addition to the Cirrus aircraft that have populated the airport, you will start seeing more Diamond birds after the 1st of January... Exciting!

The all-new sets of T-hangars are complete and fully occupied. There is currently a waiting list for hangars, so please contact us to be added.

Unfortunately, due to our busy schedule, we were unable to host another Race-The-Runway event this year. However, we are planning ahead for next fall! Last year's outcome was fantastic, and we are planning for even bigger and better things in 2020!

Have you been questioning how good your eyesight really is when landing into 3i7 at night? We have good news! We are planning to fix all lighting at the airport... And you won't have to doubt your vision again!
